Summary

I am a Front-End Web and Mobile cross platform developer currently expanding my skill set by delving into backend development, with a focus on MERN stack, to create comprehensive solutions that bridge the gap between front and back end. With over 2 years and counting of coding experience and 1 year of professional experience.

Experience

Frontend Developer

Analogue Shifts

Oct 2023 - Present (5 months)

Frontend Developer

Fowgate LLC

Jun 2023 - Sep 2023 (4 months)

Frontend Web Developer

Akumzy's Lab

Aug 2021 - Aug 2023 (2 years 1 month)

I had the opportunity to learn and grow alongside experienced professionals in the industry. During my time as an apprentice, I actively contributed to various web development projects, gaining hands-on experience in HTML, CSS, JavaScript, and other front-end tools and frameworks.

Working closely with senior developers, I assisted in building user interfaces, implementing responsive design principles, and optimizing website performance. I collaborated on tasks such as creating interactive features, integrating APIs, and conducting thorough testing to ensure seamless user experiences.

Throughout my apprenticeship, I eagerly absorbed knowledge and honed my technical skills through practical application and mentorship. I actively sought feedback, eagerly embraced challenges, and consistently demonstrated a strong work ethic and dedication to my craft.

Overall, my apprenticeship provided me with a solid foundation in front-end development, a keen eye for detail, and a passion for creating exceptional user experiences. I am excited to continue my journey as a front-end developer, leveraging the skills and knowledge gained during my apprenticeship to contribute value and exceed expectations in future projects.
